Dealer in Stoves,

THE ORIGINAL DISCOVERER OF THE GENUINE TOWNSEND Sarsaparilla.

Mr. Townsend, now over 70 years of age, has long been the owner of the **ORIGINAL TOWNSEND Sarsaparilla**, and is the manufacturer by which means it has been kept up to date, and the sales circumscribed to those only who have the means to pay for it.

The discovery of Sarsaparilla was first made by the ears of many, nevertheless, as those persons who had been healed of many diseases, and saved from death, remained so won over by the taste of the root.

HEALING POWER.

This GRAND AND UNEQUALLED PREPARATION, has been used for over 20 years, to cure all diseases, and is found incapable of degeneration or deterioration.

It is a preparation with age, and never changes but for the better; because it is prepared on scientific principles by a scientific man.

The taste of the root is the only difference of the art, have all been brought into requisition in the manufacture, and the taste of the root, which is well known to medical men, contains many medicinal properties, and some properties which are inferior to those of the root.

Illness of the President.—President Fillmore was so unwell on Tuesday night the 16th instant that his physician was called in. He was on Wednesday, however, apparently as well as ever.

Send in the Returns!

We should feel obliged if some friend in each of the surrounding counties would send us the earliest CORRECT account of the result of the election—either by mail or private conveyance.

The weather has again been quite warm. On Thursday the thermometer stood at 95° in the shade, and yesterday at 97°.

THE NEW CABINET.

President Fillmore has made a clean sweep of the old Whig cabinet, and appointed an entire new one. So far so good; any change must be for the better. DANIEL WEBSTER is Secretary of State; THOS. CORWIN of Ohio; Secretary of Treasury; WM. A. GRAHAM of N. Carolina; Secretary of Navy; E. BATES of Missouri; Secretary of War; WILLIE HALL of New York; Postmaster General; W. J. PEARCE of Maryland; Secretary of Interior; and G. CRITTENDEN of Kentucky, Attorney General.

This is a regular whig cabinet, and with the exception of Corwin, whom we regard as entirely unqualified to discharge the arduous duties of Secretary of Treasury, is probably as good a one of the kind as could be found.

Webster has commenced the duties of his office. Gen. Scott acts as Secretary of War, and Gen. Warrington as Secretary of the Navy, until the new Secretaries arrive.

Hon. THOMAS SLOTTED Ewing has been appointed by the Governor of Ohio to fill Mr. Corwin's place in the U. S. Senate.

There appears to be some prospect that the bill debate in the Senate on the compromise Bill will soon be brought to a close. It is expected that a test vote will be taken next week. The prospect of the passage of the bill is materially improved since Mr. Fillmore's accession to the Presidency.

Release of the Cuba Prisoners.—The U. S. steamer Vixen arrived at Norfolk, from Havana, bringing accounts that the American prisoners have all been given up and placed on board of U. S. ship Albany to be taken to Pensacola.

Gen. TAYLOR'S WIDOW.—A Washington correspondent of the Baltimore Sun says: "I understand that it is the intention of Mrs. Taylor, the highly esteemed relic of the late President, to establish a residence and spend the remainder of her days in Baltimore. The remains of her lamented husband will be interred in the Congressional Cemetery."

BROUGHT BACK.—George Pierce, who escaped from the jail at this place on the 23d ult., was arrested at Monmouth, Adams Co. on Saturday last, and has been brought back to his old quarters. He had been loitering around the vicinity for a day or two in company with his brother, in such a manner as to excite suspicion; it was conjectured that they intended to rob the store of Mr. Randall. When arrested they had in their possession two valuable horses, supposed to be stolen—one a bay and the other a gray.

We understand that Pierce threatens that unless some of his friends in this place bail him out he will make some astounding disclosures. P. S. Since the above was in type, we learn that owners have been found for both the horses. The bay was stolen from Mr. White, of White Pigeon, and the gray from some person in the neighborhood of Middlebury, Elk-hart Co. The Pierces are both in the jail at this place. How long will they remain?

CROMK'S BEER.—We have had a taste of the celebrated Cromk's Saraparilla Beer, which is not at all bad to take. The manufacturers, Messrs. Root & Worth, take it round daily, and deliver it to purchasers at their own residences.

TAX ELECTION.—This is the last paper that will reach many of our subscribers previous to the election; we therefore take the occasion to urge the democrats the necessity of supporting their regular ticket. We hope there will be no swapping of votes; no splitting of tickets; but that every democrat will feel it his duty to vote the ENTIRE DEMOCRATIC TICKET.

There will of course be attempts made to induce democrats to vote for whigs for county officers, on the specious plea that politics should have nothing to do with such offices, while at the same time we shall see every whig supporting them merely because they are whigs. The county is undoubtedly democratic and it is right that its officers should be the same; their station gives them a great influence, and we hesitate not say that our party would be strengthened at least 50 votes by having all our officers democratic. The question is, shall we, by electing our candidates, secure to ourselves this advantage; or shall we, by electing our opponents, throw it against us? Can any democrat waver when his duty is so plain?

We hope all personal likes and dislikes will be laid aside, and every democrat will vote with an eye single to the support of his principles. Our candidates are all well qualified for the offices for which they are nominated; they will make capable, faithful, and energetic public servants, and are therefore entitled to our support and confidence. They are all new men; they have not grown rich at the public expense; and also, it should be remembered, were selected by the county convention, representing the democratic party of Allen County, as our candidates. It may be, that some among us are not personally friendly to the candidates, or would have preferred that others had been selected in their places; but it should be taken into consideration that all should be pleased—we cannot all have our first choice—but we are all bound, as good democrats, cheerfully to submit to the will of the majority, and do all in our power to secure the election of our nominees.

Let there be no wavering; no inquiry whether a man belongs to the same church as we do, or whether he is a personal friend; but let it be borne in mind that he is our candidate, is endorsed by our convention, and is recommended to our support as a democratic candidate.

There will of course be many stories put in circulation on the eve of the election, calculated to injure our candidates—to throw suspicion on their characters as men, and their capabilities as public officers. Give no heed to such slanders; treat them with the contempt they merit; and show that the democracy of Allen County is not to be misled and deceived by such shadow devices.

Let us show what our strength really is.—By voting the entire democratic ticket we shall elect all our officers by a handsome majority, and secure to Allen county a prominent position in the democratic column.

We command to our readers the following extract from the Albion (Noble Co.) Observer, for a copy of "Christ Blessing Little Children," a most exquisite parlor engraving. This enterprising editor is entitled to more of the support and sympathy of the general press than any other in the union, and he will realize more advantage from all his attentions to the brotherhood, than from all his regular agents.

This splendid magazine is furnished for \$30 per annum; two copies or one copy for two years for \$50. Old or new subscribers remitting \$30 before the 1st November next, in payment of the year's subscription, will receive the two beautiful premium plates—'Christ blessing Children,' and 'The First Prayer.'

Washington Correspondence.

The following was intended for our last week's paper, but did not come to hand until the paper was at press.

WASHINGTON CITY, July 10, 1850.

Editor of Sentinel:

SIR,—You will have learned ere this reaches you, that Gen. Taylor, President of the United States, is no more. The demise of the distinguished hero has thrown a gloom over thousands of his countrymen, and a nation called upon to mourn his loss in the most critical period of its history.

For my own part, I deeply regret that it has pleased Providence in its wisdom to call him from time to eternity; as in all human probability his successor, Mr. Fillmore, who took the oath of office to day, will be as likely to ride upon the storm and conduct the whirlwind as was Gen. Taylor.

Fillmore is hated by the South, and regarded by them as an abolitionist, and therefore lacks the confidence of every one of them—Taylor was a favorite with some and all his sympathies were with them. His interest and feelings were southern. Moreover, his great military character had a power and awe in it that was felt everywhere, and should the crisis arrive which is foreseen by some, and hoped for by others, he, as commander-in-chief of the army, would have been more effective in enforcing order and executing the laws of the United States than Mr. Fillmore. That he was for the Union, unimpaired, one and inseparable, all admit; consequently he would have preserved the same at all hazards.

In Fillmore you may find the citizen and statesman combined in a very great degree, and the real old fashioned, out-and-out, Henry Clay who is an eminent degree, and upon these last mentioned principles you may expect to see the government administered.

All manner of rumors are as fast as to Fillmore's cabinet. Some say the same will be entirely swept away; others say Clay, Seward, and his friends look badly; Clay and his are quite much enlivened, and predict a speedy termination of all our difficulties.

Some very beautiful eulogies were passed upon the President to day in the Senate by Webster, King, Cass, and Berrien. Clay sat in his seat, and looked like majesty in ruins. No one pretends to see the end of our troubles, nor to predict the fate of things. All is hope and expectation. Some regard the death of Taylor as a providential interference and ominous of good. I hope it is so. A few more days will tell mighty upon the country, and shape its destiny for weal or woe for ages yet to come. More anon as things develop themselves. Very truly,

A. J. HARLAN.

Another Warning.—We yesterday obtained the facts of a case of cholera, when the patient was declared to be dead, the coffin prepared, but who afterwards awoke to life! Last year three similar cases came within our notice, and we have noticed in papers from all parts of the country, accounts of circumstances of the same kind.—Cincinnati Commercial.

Another Fire in San Francisco!—This doomed city has again been the scene of a terrible fire. On the 17th June a large portion of the city was destroyed; the loss is estimated at from three to four millions of dollars.

Correspondence of the Baltimore Sun.

WASHINGTON, July 16.

SENATE.—After the transaction of morning business, the Omnibus bill was again taken up.

Mr. Rusk spoke in reply to the remarks of Mr. Benton yesterday relating to the Northern boundary of Texas, and giving some length in support of the title of Texas to the Rio Grande.

Mr. Clay followed in defense of the action of the Committee relating to the boundary of Texas. After rebuking Benton severely for an intimation made by him yesterday that the sum to be paid to Texas was a scheme of auctioneering for votes, he proceeded with an argument to show that the true line of New Mexico begins at El Paso, running to the head of Red River, and thence to the 42d parallel.

Mr. Benton rejoined, replying to Mr. Clay's rebuke for language used by him yesterday, contending that the language was proper, and challenging any one to call him to order now for repeating it.

Mr. Clay called him to order for saying that the scheme of the bill was to auctioneer for votes to pass itself.

The President ruled that the language was in order unless designed to impute improper motives to Senators, which he understood Mr. Benton to deny.

After some further colloquy between Messrs. Benton and Clay relative to the boundary of Texas, and additional remarks upon the same subject.

Mr. Webster rose to address the Senate upon the general merits of the bill, but yielded to a motion to postpone the further consideration of the subject until to-morrow, which was agreed to.

Mr. Webster gave notice of a bill for the erection of a monument to General Zachary Taylor, in the Congressional burying ground.

The Senate then, after executive session, adjourned.

WASHINGTON, July 17.

Senate.—Mr. Webster introduced a bill to provide for the erection of a monument to the Congressional burying ground, to the memory of Zachary Taylor. Read twice and referred.

The adjustment bill was taken up, and Mr. Webster spoke at length in its support.

After stating that he had intended to bring the Senator from S. C. (Mr. Butler) on Tuesday last, but the illness of the President had prevented him from doing so, Senator had concluded his remarks—Mr. Webster made some beautiful reflections on the death of Gen. Taylor. It was an addition to adjust the controversies which had so long agitated Congress. Some healing and composing measure ought to be adopted before Congress adjourned. He assured that President Fillmore would do his duty, and Mr. J. L. said he "will stand by him." However, no one seems to believe now that Texas will press measures to the point of actual collision. It is folly to suppose that she can expend a million of dollars in raising, equipping, and subsiding an army, to take and keep possession of Santa Fe.

Yours by the America.

HALIFAX, July 13.

The steamship American arrived off the harbor last night, but owing to a dense fog that prevailed, she did not reach her wharf until this morning.

The America arrived at Liverpool Sunday, the 26th ult., at noon, and sailed on the 27th at 2 P. M.

Sir Robert Peel was killed on the 28 of June, by being thrown from his horse.

The growing crops of grain throughout the Kingdom continue promising though the harvest may be later than the average of seasons.

We have dates from Lisbon to the 9th ult.

Great excitement prevailed in consequence of the arrival of an American squadron of the Tagus—to enforce the claims of the United States Government.

Twenty one days were allowed by the American commander, as to when he would be ready to meet the demands of the United States.

Mr. Webster proceeded to say that no drug was ever so beaten, with constant din on a rub-a-dub, as the popular mind was, with abolition clamor, every week, day and hour. Mr. Webster closed with declarations of his purpose to stick by the Union and promote its harmony.

Mr. Webster gave notice of a bill to prohibit the importation of slaves into the United States.

Mr. Webster spoke at length in its support.

We are desired to announce the name of S. M. BLACK, a candidate for reelection to the office of Treasurer of Allen County, pd.

SA. K. BENTON.
Please announce SAMUEL HANNA, Esq., a candidate for Senatorial Delegate to Constitutional Convention, etc., etc., etc.

Many thanks.

We are requested to state that H. B. TAYLOR is a candidate for County Commissioner, 1st district.

The Fort Wayne Sentinel.

SATURDAY, JULY 27, 1850.

MR. V. B. PALMER, Tribune Buildings, New York; Third and Chestnut Streets, Philadelphia; and No. 8 Congress Street, Boston, is Sole Agent for the Sentinel in those cities; and is above authorized to receive subscriptions, advertisements, &c., on our account.

Illness of the President.—President Fillmore was so unwell on Tuesday night the 16th inst., that his physician was called in. He was out on Wednesday, however, apparently as well as ever.

Send in the Returns?

We should feel obliged if some friend in each of the surrounding counties would send us the earliest correct account of the result of the election—either by mail or private conveyance.

The weather has again been quite warm. On Thursday the thermometer stood at 88° in the shade, and yesterday at 97°.

THE NEW CABINET.

President Fillmore has made a clean sweep of the old Whig cabinet, and appointed an entire new one. So far so good; but why change must be for the better. DANIEL WEBSTER is Secretary of State; THOMAS COXWELL of Ohio, Secretary of Treasury; WM. A. GRAHAM of N. Carolina, Secretary of Navy; E. BATES of Missouri, Secretary of War; WILLIS HALL of New York, Postmaster General; W. J. PEASE of Maryland, Secretary of Interior; and Gov. COTTRELL of Kentucky, Attorney General.

This is a regular whig cabinet, and with the exception of Corwin, whom we regard as entirely unqualified to discharge the arduous duties of Secretary of Treasury, is probably as good a one of the kind as could be formed.

Webster has commenced the duties of his office. Gen. Scott acts as Secretary of War, and Com. Warrington as Secretary of the Navy, until the new Secretaries arrive.

Gen. THOMAS SOLITUDE EWING has been appointed by the Governor of Ohio to fill Mr. Corwin's place in the U. S. Senate.

There appears to be some prospect that the tedious debate in the Senate on the compromise Bill will soon be brought to a close. It is expected that a test vote will be taken next week. The prospect of the passage of the bill is materially improved since Mr. Fillmore's accession to the Presidency.

Release of the Cuba Prisoners.—The U. S. steamer Vixen arrived at Norfolk, from Havana, bringing accounts that the American prisoners have all been given up and placed on board of U. S. ship Albany to be taken to Pensacola.

Gen. TAYLOR'S WIDOW.—A Washington correspondent of the Baltimore Sun says: I understand that it is the intention of Mrs. Taylor, the highly esteemed wife of the late President, to establish a residence, and spend the remainder of her days in Baltimore. The remains of her lamented husband will be interred in the Congressional Cemetery.

Brown's Bala.—George Pierce, who escaped from the jail at this place on the 23d inst., was arrested at Monmouth, Adams Co., on Saturday last, and has been brought back to his old quarters. He had been loitering around the vicinity for a day or two in company with his master, in such a manner as to excite suspicion; it was conjectured that they intended to rob the store of Mr. Randall. When arrested they had in their possession two valuable horses, supposed to be stolen—one a bay and the other a gray.

We understand that Pierce threatens that, unless some of his friends in this place will him out, he will make some astounding disclosures.

P. S. Since the above was in type, we learn that owners have been found for both the horses. The bay was stolen from Mr. White, of White Pigeon, and the gray from some person in the neighborhood of Middlebury, Elkhart Co. The Pierces are both in the jail at this place. How long will they remain?

Carroll's Bear.—We have had a taste of the celebrated Cronk's Saraparilla Bear, which is not distilled to taste. The manufacturers, Messrs. Root & Worth, take it round daily, and deliver it to purchasers at their own residence.

FOX ELECTION.—This is the last paper that will reach many of our subscribers previous to the election; we therefore take the occasion to urge on the democrats the necessity of supporting their regular ticket. We hope there will be no swaying of votes; no splitting of tickets; but that every democrat will set his duty to vote the **ENTIRE DEMOCRATIC TICKET.**

There will of course be attempts made to induce democrats to vote for whigs for county officers, on the specious plea that politics should have nothing to do with such offices, while at the same time we shall see every whig supporting them merely because they are whigs. The county is undoubtedly democratic and it is right that its officers should be the same; their station gives them a great influence, and we hesitate not say that our party would be strengthened at least 50 votes by having all our officers democratic. The question is, shall we, by electing our candidates, secure to ourselves this advantage; or shall we, by electing our opponents, throw it against us? Can any democrat waver when his duty is so plain?

We hope all personal likes and dislikes will be laid aside, and every democrat will vote with an eye single to the support of his principles. Our candidates are all well qualified for the offices for which they are nominated; they will make capable, faithful, and energetic public servants, and are therefore entitled to our support and confidence. They are all new men; they have not grown rich at the public expense; and also it should be remembered, were selected by the county convention, representing the democratic party in Allen County, as our candidates. It may be, that some among us are not personally friendly to the candidates, or would have preferred that others had been selected in their places; but it should be taken into consideration that all cannot be pleased—we cannot all have our first choice—but we are all bound, as good democrats, cheerfully to submit to the will of the majority, and do all in our power to secure the election of our nominees.

Let there be no wavering; no inquiry whether a man belongs to the same church as we do, or whether he is a personal friend; let us let it be borne in mind that he is our candidate, endorsed by our convention, and is recommended to our support as a democratic candidate.

There will of course be many stories put in circulation on the eve of the election, calculated to injure our candidates—to throw suspicion on their characters as men, and their capabilities as public officers. Give heed to such stories; treat them with the contempt they merit; and show that the democracy of Allen county is not to be misled and duped by such shadow devices.

Let us show what our strength really is.—By voting the entire democratic ticket we shall clear all our offices by a handsome majority, and secure to Allen county a prominent position in the democratic column.

We command to our readers the following extract from the Albany (Noble City) Observer. It contains some wholesome truths, and is equally applicable to Allen as Noble county:

Democracy be vigilant. The enemy is abroad,—using every exertion and bringing into requisition everything that can have a tendency to weaken our strength. Some of the Whig candidates are scouring the country, endeavoring to get democratic votes, and in order to effect this they will tell you that **our** **candidates** have an important political influence, that party principles are not involved in them &c. This will be out of their arguments, but it is false—every office in the country, down to the smallest, has an influence on the general success of Democratic principles—but this is not all. What chance can these men have upon democrats? Through democratic influence they have **already** held the offices of the county for years; and now, forsooth, they have the hardened to ask democrats to desert their own candidates, and give them a chance for years to come? Democrats, these men have opposed your principles, and fought against you men even while they were seeking the salaries of the offices which they are called upon to man; and it is a most critical period of history.

Mr. Clay expressed a wish to be heard at length on the bill, either after the amendments are voted on or before. If the motion to lay on the table was to be passed, he would speak to-morrow.

The bill was postponed till to-morrow, and after a short Executive session, the Senate adjourned.

House of REPRESENTATIVES.—On motion of Mr. Strong, the rules were suspended, and the House resolved itself into a Committee of the Whole, (Mr. Mr. Lane of Maryland in the chair,) and resolved the consideration of the application of Mr. B. Smith to be admitted to a seat as a delegate from New Mexico.

The chair (Mr. McCance) stated the question was as follows:

The majority of the committee had reported the following resolution, viz:

Resolved, That it is inexpedient to admit Hugh N. Smith, Esq., to a seat in this House as a delegate from New Mexico.

To which Mr. McCance, from the minority of the committee had moved the following substitute, viz:

Resolved, That the said Hugh N. Smith be admitted to a seat in the House of Representatives of the United States as a delegate from New Mexico.

Mr. Schenck moved to amend the amendment of Mr. McCance, by inserting after the word Mexico the words "for the present Congress."

The amendment was agreed to.

Mr. Finch did not believe, if a delegate was admitted, it would touch the boundary question at all; but to avoid any such construction he moved to amend the amendment by inserting all that will not raise in defense of any thing for the proper construction of the act of 1818, under which the interest was paid.

On motion of Mr. Thompson, of Pa., the communication was referred to the judiciary committee.

The House then adjourned.

PLASK Roads.—Greely, the editor of the N. Y. Tribune, who has been taking a trip into the country for relaxation, thus writes back concerning plank roads:

Let me not close this hasty scroll without invoking blessings on the inventor of PLANK Roads. Looking at one, trudging over it, I can't imagine how the world has contrived to plumb on so long without blundering into the making of them. The one stretching from Rome to Watertown has diminished the cost of transportation more than half, and added ten to twenty per cent. to the value of every farm.

The toll it levies all along and stays in the country is trivial, and goes to Clay, Sawyer and his friends, half-hoax. Clay and his

alliance of rumors are about as to Fillmore's cabinet. Some say the old one was entirely swept away; others say, Cliftion, Merriell, and Crawford only will be displaced.

My own opinion is, that a new cabinet will be appointed on the 1st of August, and secured by Webster at the head of the Senate, and the rest of the Legislati-

ture. Some pretend to see the end of our troubles, but to predict the fate of things. All is hope and expectation. Some regard the death of Taylor as a providential interference and an omen of good. I hope it is so. A few more days will tell rightly upon the country, and shape its destiny for weal or woe and for us yet to come. More anon as things develop themselves.

Very truly,
A. J. HARLAN.

Another Warning.—We yesterday obtained the facts of a case of cholera, when the patient was declared to be dead, the entire party left, but afterwards came to life! Last year three similar cases were within our notice, and we have noticed in papers from all parts of the country, accounts of circumstances of the same kind.—Cincinnati Commercial.

Another Fire in San Francisco!—This doomed city has again been the scene of a terrible fire. On the 17th June a large portion of the city was destroyed; the loss is estimated at from three to five millions of dollars.

Frederick Webster sentenced to be Hanged.—The Governor and Council of Massachusetts have decided not to commute Webster's sentence to life imprisonment, and he is to be executed on the 30th of August.

CHOLERA.—In St. Louis there were 210 deaths from cholera during the week ending July 22d. In Cincinnati from 20 to 30 daily. There have been a few cases in Pittsburg.

INCENDIARISM.—On Sunday night last, about 11 o'clock, the barn of Mr. John Waggoner, 3 miles north of this place, near the Gosden road, was set on fire, and with the contents entirely consumed. When first discovered, the fire was burning in several different parts of the barn, but the flames spread so rapidly that it was impossible to save anything. The barn contained the wheat in 14 acres of land, five or six tons of hay, a wagon, harness, plough, plough, &c. The total loss is estimated at \$100 to \$500. By this day, the

President ruled that the language was in order designed to impair improper motives to Senator, which he understood Mr. Benton to be.

Mr. Rusk spoke in reply to the remarks of

Mr. Benton yesterday relating to the Northern

boundary of Texas, arguing at some length in

support of the title of Texas to the Rio Grande.

Mr. Clay followed in defense of the action of

the Committee relating to the boundary of

Texas. After rebuking Benton severely for

an intimation made by him yesterday that the

time to be paid to Texas was a scheme of

treason. He proceeded with an argument to show that the true line of the Rio Grande

was the 100th meridian.

Mr. Benton replied to Mr. Clay's rebuke

for language used by him yesterday,

contending that the language was proper,

and challenging any one to call him to order now for repeating it.

Mr. Clay called him to order for saying that

the scheme of the bill was to auction for

votes. The President ruled that the language was in order designed to impair improper motives to Senator, which he understood Mr. Benton to be.

After some further colloquy between Messrs.

Benton and Clay relative to the boundary of

Texas, and additional remarks upon the same subject,

Mr. Webster rose to address the Senate upon

the general merits of the bill, but yielded to

the motion of the chair to postpone the considera-

tion of the bill to a later day.

Mr. Webster gave notice of a bill for the

erection of a monument to General Zachary

Taylor, in the Congressional burying ground.

The Senate then, after executive session,

adjourned.

Indiana, to wit: Allen Circuit Court, Allen County, etc., July Term, 1850.

ATTORNEY ATTACHMENT.

Joseph T. Mills vs. Nels L. Shandor.

IT is ordered by the Court, that notice of the judgment of said writ be given to said defendant, by publication in a newspaper of general circulation in the city, for the length of time required by law, so that defendant may be heard, to be and appear before the Judges of the Allen Circuit Court, on the second Monday in October next, and plead to the action or in default, that the same will be held and determined by the above. R. E. FLEMING, Clerk.
